

SMS FOR AERODROMES – BLOCK 5

# OBSTACLES FOR MANAGERS & INSPECTORS

## Part 2

RDIMS#14613905

Canada

1

This section focuses on a few videos out there on SMS. One is from CASA and the other is from the FAA. While not specific to aerodromes, they provide good information to an overall understanding of a practical implementation.

The image shows a screenshot of a presentation slide. At the top, there is a header bar with the Canadian flag and the text 'Transport Canada' on the left, and several small icons on the right. The main content of the slide is centered and includes the title 'SMS Videos' in a large, bold, blue font. Below the title is a bulleted list with two items: 'CASA SMS Video (8 Minutes)' and 'FAA SMS Software Program video (3 minutes)'. In the bottom right corner of the slide, the word 'Canada' is written in a serif font with a small red maple leaf icon above the 'a'.

## Group Exercise

Breakout into 5 groups and discuss the following topics about the CASA video.

Groups to each present a question to the collective assembly at the end for further discussion and reflection.

## Group Questions

**Q1:** How would you assess Bush Aviation's safety culture? What decisions are made in the video that affect the safety culture? What do they do to improve?

**Q2:** How would you write the job description of the safety management/officer? What responsibilities should they have?

## Group Questions

**Q3.** Bush Aviation is expanding its business and will be introducing a new type of aircraft to its fleet. What hazards could these developments bring to operations?

**Q4:** How would Bush Aviation's SMS need to be scaled to incorporate its expanding business?
